CSULB STUDY ABROAD

CALIFORNIA STATE UNIVERSITY LONG BEACH

Program Information

Management 300 & 495 is now being held in both Winter and Summer sessions in Thailand! Learn about business and management while studying abroad in Thailand for three weeks. We have partnered with Mahidol University in Bangkok to create a once in a lifetime experience to learn about business in Asia's hottest tourist location. You will spend time in Bangkok visiting small and large companies, such as Nestle and Cafe Amazon. You will also attend lectures on business topics from local experts. There will be cultural activities to visit famous temples, shop at floating markets and learn about Thai massage and kick boxing!

You will spend two weeks in Bangkok, the capital of Thailand, then visit Chiang Rai to work with an NGO that helps the local hill tribe communities. You will get a chance to volunteer building a school for stateless children in rural Thailand while staying with a family in a nearby village. Interested? Contact tour leader, Rick Opland for more info and learn how to make this life-changing trip happen! Total costs are significantly less than other study abroad locations, and some \$500 ASI Scholarships are available.

For more information and a preliminary itinerary, please visit our website: www.studyabroadthailand.com

CSULB STUDY ABROAD
