

# Summer in Peru: Arts & the Environment

## July 17 - 29, 2018

*Experience hands-on tracking of jungle animals in the Peruvian Amazon and discover the science of rainforest animal conservation while developing creative visualizations of the world around you!*

**Course Offering:** VSAR 331: Art, Science & Technology or Independent Study by arrangement; satisfies UDGE CC credit for students with 60 units

### Program Highlights:

- Guided rainforest tours and night jungle hikes to observe nocturnal creatures
- Visits with the local town and indigenous community
- Visits to Museums of Archaeology and Anthropology, National University of San Marcos, Lima
